

# 4th Sino-German Professor-Forum 2012

Suzhou, China

23.-26. September 2012

The Sino-German Professor Forum is an initiative of the „**Gesellschaft Deutscher Professoren Chinesischer Herkunft**“ (GDPCH 德国华人教授学会). The forum serves as an interdisciplinary exchange forum for German and Chinese Professors who work actively in bilateral scientific and high-educational collaborative projects or intend to start such collaborations. The ultimate goal of this forum is, by regular meetings, to intensify experience exchange, to make project-oriented recommendations and to become a competent and independent Think-Tank, which helps with the promotion of innovative cooperation in science and higher education between Germany and China.

Supported by the Soochow University, the fourth forum 2012 devotes itself to the topic „**The Future of Scientific Cooperation between China and Germany**“. Members of the GDPCH, representatives and coordinators of national and international collaborative research projects and organizations will share their experience and exchange their views about future cooperation between the both countries. Opportunities and practical issues for initiating new collaborative research projects between Chinese and German scientists will be discussed.
