

# 5th Sino-German Professor-Forum 2013

## Clausthal-Zellerfeld, Germany, 7.-9. June 2013

TU Clausthal

The Sino-German Professor Forum is an initiative of the „**Gesellschaft Deutscher Professoren Chinesischer Herkunft**“ (GDPCH 德国华人教授学会). The forum serves as an interdisciplinary exchange forum for German and Chinese Professors who work actively in bilateral scientific and high-educational collaborative projects or intend to start such collaborations. The ultimate goal of this forum is, by regular meetings, to intensify experience exchange, to make project-oriented recommendations and to become a competent and independent Think-Tank, which helps with the promotion of innovative cooperation in science and higher education between Germany and China.

Supported by the TU Clausthal, the fifth forum 2013 devotes itself to the topic „**New Trends and Experiences in Sino-German Cooperation on Science and High Education**“. Members of the GDPCH, representatives and coordinators of national and international collaborative research projects and organizations will share their views about the new development trends and new challenges for the scientific cooperation between the both sides, particularly in the framework of high education. Opportunities and practical issues for initiating new collaborative research projects between Chinese and German scientists will be also discussed.
